RE: United States v. Pryer
Case No. 05-15-SLR

Dear Mr. Dalleo;

On July 13th, 2006, I wrote a letter to your office seeking advise on the necessary procedures in this judicial district for obtaining copies of the Transcript(s) from the Change of Plea colloquy proceedings and the Sentencing Hearing held in this case, for the expressed purpose(s) of filing a pro se petition pursuant to and in accordance with 28 U.S.C. § 2255. I also informed your office, therein, that I am prepared to pay the cost for these requested documents, if necessary, and arrangements could be made for some family member of mine to come into your office and make the payments.

On or about July 30th, 2006, through some obvious confusion, however, I received a standard § 2255 form from your office. The form, alone, serves me no purpose if I cannot obtain the Transcript(s) from the above-mentioned proceedings so that I can review the records in search of facts to support the claims in intend to raise for post-conviction, collateral, habeas corpus relief(s).

Therefore, I am once again requesting guidance from your office, with regard to my obligations for the procurement of these essential court papers.

I deeply appreciate your kind and considerate indulgence and thank you, once again, in advance, for any professional assistance that you and/or someone else from your office can and are willing to give me in this matter.

I patiently await your reply.

Respectfully

/S/ _____
Joseph M. Pryer
